Replicating ARTECO-LOGIC NEXT Configuration to Multiple Client PC's
TECH TIP Ver. 4.0.1

DESCRIPTION: This Tech Tip is a "work around" to help customers quickly replicate the configuration of the ARTECO-LOGIC Next client by copy and pasting the configuration files of the program. The configuration file maintains the look and feel of the software and includes layouts and server details.

IMPORTANT: This Tech Tip applies to ARTECO-LOGIC Next version **4.0.2.1018 or earlier** and is not intended or advised to be used with any other version of ARTECO-LOGIC Next. This Tech Tip applies to ARTECO-LOGIC Next installed via the **default installation path on Windows 7 OS** only and is not intended or advised to be used with any other installation path or Windows OS version.

1) **On the first Client PC, log into ARTECO-LOGIC Next and set it in the desired configuration.**
2) **On the first Client PC, locate the file Config.xml**
   a. **Make sure the PC is set to "Show Hidden Folders"**
      i. **Go to Control Panel\Folder Options\View and check "Show Hidden files, Folders and Drives"**
   b. **Go to C:\ProgramData\ARTECO-LOGIC-NEXT**
   c. **Select the Config.xml file and right-click, select "copy" the file.**
   d. **"Paste" this file in the same location on the second Client PC and save over the existing Config.xml on the second Client PC (repeat this step in subsequent client PC's)**
3) **NOTE: To make it easier to transport between PC's, paste the Config.xml file to a removable storage device such as a USB drive.**
