The new vision of the future.

OMNIA is the new client by Arteco that meets the needs of security professionals.

Innovative, powerful and smart: **O**MNIA starts the revolution of Video Management Software.

INNOVATIVE

Developed for Microsoft Universal Platform (UWP), **O**MNIA allows for a **complete integration** in Windows 10 and future releases. It has indisputable benefits.

- Available on desktop and tablet
- Real time push notifications
- Automatic download and updates from Microsoft Store
- Compatible with all the GPUs integrated in Windows
- System diagnostic tools included

POWERFUL

Thanks to **O**MNIA's graphic acceleration and its new multi monitor approach, the management of high-resolution video cameras gets smoother and **breaks the limits** of controlling complex systems.

- No restrictions on the use of GPUs
- Player improved for a better management of events, recordings and exportations
- Geo-localization of devices on Microsoft Bing maps
- Advanced video streaming
- Adaptive layout

SMART

OMNIA's graphical interface has a **user-centered design** to guarantee a smarter work experience.

- Simple guided configuration of systems, devices and actions
- Quick display of events though filters and smart filters
- Thumbnail previews of archived videos
- OSD notes and fast commands
- Quick sharing with devices and systems
